 Safeenat Al Sharq

 SafeenatSharq

A leading UAE-based environmental and petroleum solutions company specializing in trading high-quality Fuel Oil, Furnace Oil, Used Engine Oil, Diesel, Kerosene, and other petroleum products.

# ABOUT US

Safeenat Al Sharq Used Lubricants Collection LLC is a licensed environmental and petroleum-products terminal located in Sajaa Industrial Area, Sharjah. We specialize in Fuel Oil, Used Lubricants, Furnace Oil, Diesel, and Kerosene for industrial clients across the UAE.

Operating under strict environmental and quality standards, every product is tested to ensure safe, efficient, and sustainable performance.

# OWNERSHIP & MANAGEMENT

## A NEW ERA UNDER MR. AMIR YOUSEFZADEH SIAHKAL

In 2025, ownership of Safeenat Al Sharq was officially transferred to Mr. Amir Yousefzadeh Siahkal, Founder & CEO of Safeenat Al Sharq Used Lubricants Collection LLC–SP.

With over 20 years of engineering and business experience overseas and in the UAE, Mr. Amir’s leadership marks a major transformation—modernizing facilities, expanding trading operations, and driving sustainable fuel-recycling initiatives.

“Our goal is to build one of the UAE’s most trusted and sustainable energy terminals, aligning business success with environmental protection.”

— Mr. Amir Yousefzadeh Siahkal

# OUR TERMINAL FACILITIES

01

21 Storage Tanks – Total capacity  $\approx$  2,500 MT

02

Weighbridge System – Digitally calibrated for accurate transactions

03

Dedicated Laboratory – ASTM-compliant testing for density, viscosity, sulfur, water & flash point

04

Diesel Retail Pump & Distribution Yard

05

Fleet of Heavy Vehicles and Various Tankers for logistics and supply

06

Secure Office & Monitoring System for 24-hour operational control

# PRODUCTS & SERVICES

## Used Lubricant Collection

Licensed by UAE authorities to collect, transport, and process used engine oil and industrial lubricants from workshops, factories, and all industrial clients.

## Processing

Expert in formulating blended fuels (Furnace Oil & Boiler Fuel) to match client specifications for viscosity, water content, density, flash point, calorific value, and sulfur.

## Fuel Supply & Distribution

Reliable supply of Furnace Oil, Diesel, and Kerosene to:

- Metal smelting and foundries
- Construction and ready-mix plants
- Marine and shipping services
- Laundry and boiler facilities

# PRODUCTS & SERVICES

## Terminal Storage & Handling

Bulk-storage solutions for fuel traders and industrial partners, including weighbridge, sampling, and lab testing support.

# QUALITY & ENVIRONMENTAL STANDARDS

All operations conform to UAE municipality and environmental regulations.

Each batch is tested for quality and compliance, ensuring product safety and customer satisfaction.

Commitment to sustainability: Re-refining used oils into reusable fuels reduces pollution and dependency on imports

## OUR VISION & MISSION

### Vision

To be recognized as the UAE's most reliable and eco-friendly partner for used-oil recycling, fuel blending, and industrial energy solutions.

### Mission

Promote sustainable reuse of petroleum waste.

Provide safe, consistent, and customized fuel solutions.

Maintain long-term partnerships through trust and transparency.

# DEVELOPMENT TIMELINE

## 2021 Fleet Upgrade

Acquisition of a modern fleet improved delivery efficiency and logistics flexibility across the UAE.

## 2023 Infrastructure Upgrades

Installation of a new weighbridge and enhanced safety systems boosted operational control and regulatory compliance.

## 2025 Present Scale

Now operating 21 storage tanks with 2,500 MT capacity under the leadership of Mr. Amir Yousefzadeh Siahkal, Safeenat Al Sharq delivers complete solutions from collection to blending and fuel supply across the Emirates.

## 2002 Foundation

Safeenat Al Sharq was established in Sharjah, UAE, beginning operations in used-oil collection and storage — marking its first step in the petroleum recycling industry.

## 2007 First Expansion

Installation of the first bulk storage tanks and tanker truck enabled larger-scale import, export, and distribution for industrial clients.

## 2013 Laboratory Setup

A modern in-house lab was established for testing density, viscosity, sulfur, and water content, ensuring reliable and compliant fuel supply.

## 2017 Capacity Growth

Storage capacity expanded to around 1,500 MT with infrastructure upgrades, strengthening the company's regional presence.
